

Electro-Acupuncture according to Voll (EAV)

A comparative study of the influence of concrete on health, both with and without the addition of CARBOMETUM®

Test principle

Electro-Acupuncture according to Voll (EAV) is the biometrical method of measuring used in this test, whereby the conductance of the tissue at the acupuncture end-points of the fingers of a test person is determined. This measurement provides information about the functional condition of the corresponding organ system. In a second measurement (with the building material to be tested inserted into the sample tester), its influence on health functions can be assessed.

Test persons

It is noted that substantially different stresses are triggered in the test persons. These stresses are specific to both the particular material and the individual. The table below shows typical test results of Electro-acupuncture measurements for concrete samples with and without CARBOMETUM®.

Stresses and strains

With exposure to conventional concrete, Test Person 1 (♂ 57 years old) showed stresses of the respiratory and circulatory systems, the heart, the endocrine system, and organ degeneration.

Test Person 2 (♀ 35 years old) when exposed to conventional concrete, experienced negative effects on the large intestine and the endocrine system, as well as degeneration of the nerve cells.

However, it was noted that such typical stresses disappeared in both test cases when exposed to concrete to which CARBOMETUM® had been added.

Test results

Quadrant test points	Test Person 1 ♂ 57 years old					Test Person 2 ♀ 35 years old				
	Base value	Deviation from base value				Base value	Deviation from base value			
		Conventional concrete		Concrete with CARBOMETUM®			Conventional concrete		Concrete with CARBOMETUM®	
	No influence	Deviation ≥ 10%	No influence	Deviation ≥ 10%		No influence	Deviation ≥ 10%	No influence	Deviation ≥ 10%	
Lymph Meridian	49	√		√		47	√		√	
Lung Meridian	53		- 7	√		46	√		√	
Colon Meridian	56	√		√		48		- 10	√	
Nerve degeneration	56	√		√		48		- 8	√	
Circulation Meridian	49		ND 44/38	√		44	√		√	
Allergy Meridian	51	√		√		46	√		√	
Organ Degeneration	49		ND 48/34	√		46	√		√
